

BOOK YOUR AUTHOR VISIT

SESSIONS

* Theme explorer!

After reading through one of Andrew's stories, we will work together as a group to uncover the story's theme and chat about how the theme can be applied to make our daily lives better.

* Let's write a story together!

What's better than writing a story? Writing a story in a group! After going through a crash course in structuring a story, each group writes a story! Fun and laughter guaranteed as each group shares their stories to the class.

Level up!

Kids will learn the art of writing writing a story, the linguistic tools anyone can use to enhance their stories and how to tap into their creative superpowers.

How is a picture book really made?

We see thousands of books on the shelf at a library or book shop. How are they made? Who draws the pictures?
